State manner in which water is to be diverted, whether by dam or other works, whether through pipes, ditches, flumes, or other conduits.

9. Estimated cost of works \$5,000.

10. Estimated time required to construct works 3 years

11. Remarks Water is being comingled with water from other springs, as well as water from underground sources. This is a rather unusual situation, I sent my engineer all of the data in connection with a previous filing on this spring, he made a special trip to Ash Meadows, at which time I assisted him in locating the necessary section corners etc., and he did the surveying, and I was of the opinion that he had filed the maps in your office. Also; when I purchased this property, the water from this springs was Comingling with the water from other springs, and I have used all of the water to a beneficial use, every since that time. And every indication is that this is the only time the water has been used for a great many years.
